

WHAT IS DYSPEPSIA?

Among the many symptoms of Dyspepsia or indigestion the most prominent are: Variable appetite; faint, gnawing feeling at pit of the stomach, with unsatisfied craving for food; heartburn, feeling of weight and wind in the stomach, bad breath bad taste in the mouth, low spirits general prostration, headache and constipation. There is no form of disease more prevalent than dyspepsia, and none so peculiar to the high-living and rapid-eating American people. Alcohol and tobacco produce Dyspepsia; also, bad air, rapid eating, etc. BURDOCK BLOOD BITTERS will cure the worst case, by regulating the bowels and toning up the digestive organs. Sold everywhere.

The best evidence in the world of the purity and excellence of Blackwell's Bull Durham Smoking Tobacco is found in the fact that the fame of this tobacco increases from year to year. This could not be the case if it were made of anything but the finest and purest tobacco leaves. It is not only pure but it is also of a quality that is superior to any other tobacco in the world, and every year the Bull Durham brand grows more popular, the demand for it wider and stronger.

There is no mischief done where Blackwell's Bull Durham Smoking Tobacco is used.

THE RUSH FOR LAND. An Unprecedented Demand for Railroad and Government Land in Western Counties.

Cattle Ranges Broken Up and the Long Horn Herds Scattered to the Four Winds. Tame Grasses Boonings the Buffalo—Old Trails at North Platte—The Crush at Ogallala.

Correspondence to THE BEE. OGALELLA, Neb., March 14, 1884.—A cruise about here through Keith and Cheyenne counties shows a great state of excitement among all classes. An unprecedented boom has set in hereabouts, and land-hunters flock in by every train. They come from all parts of our own state and from all other states east of us. Homesteads and timber-claims are being taken at a lively rate; not an acre of land in either county will be left by September. The railroad lands are going like hot cakes and will be all sold by the first of May.

THE SOIL. Up here is rich beyond expectation and is much better than most of that in the eastern part of the state. Between Ogallala and Sidney lies a stretch of country 75 miles long and from 6 to 30 miles wide—a beautiful table-land which for richness of soil cannot be surpassed anywhere, and it is now open to settlement.

THE LAND OFFICES. At North Platte, where the land hunter after government lands must go to make his entries, are crowded, daily, after places; but unfortunately there is no business done, beyond filing the necessary papers, the severe illness of Judge Taffe, the receiver, making it impossible to do more. The filing of applications, which secures the land to the party making the application when business is resumed, goes on at a lively rate. The nomination of Judge Church for register vice Dr. Buckworth whose term has just expired, is still hanging fire.

STENOGRAPHIC SCRIBES. The Nebraska State Stenographers Association held a very important meeting last night, in the office of Bell & Shriver, and polished off considerable business.

STENOGRAPHIC SCRIBES. The minutes of the previous meeting were read and approved. The minutes of the banquet proceedings proved highly interesting and amusing, being written in a very facetious and witty style. Five new applicants were admitted as members of the fraternity. The short-handlers are an energetic set and they propose to make their association one of the biggest institutions in the west, and if well directed efforts and intelligent co-operation will do it, they will assuredly succeed. It ranks among its members some of the most useful members of this growing community, who perform their important duties in such a quiet and unobtrusive manner that the general public know little or nothing of their great utility, but let the little army be prevented from some cause or the other from performing their duties for one day, they find their work would be thoroughly felt. The next meeting will be duly announced by the secretary.

GENERAL FOREIGN NEWS.

HUNGARIAN ANARCHISTS. PESTH, March 14.—The police to-day made a raid upon the haunts of the anarchists. They arrested editors Zakumit and Slezpaw and thirty other persons. BRADLAUGH ROTTEN-EGGED. OTTAWA, March 14.—A delegation of brewers waiting on the governor to-day and said the trade was generally head-capped by existing legislation and they desired that the government should amend the Scott temperance act so as to grant power to sell light wines in all the counties that adopted the act. This would help to decrease the use of ardent liquors and promote sobriety. EFFECTS OF OSMAN'S DEFEAT. LONDON, March 14.—General Graham telegraphs that the sheiks are more peaceable since Osman's defeat and he expected the road to Berber to be clear within 10 days. BRADLAUGH ROTTEN-EGGED. LONDON, March 14.—Bradlaugh, while delivering a lecture at Bridgewater last night against perpetual pensions, was attacked by roughs and driven from the platform by showers of rotten eggs and fireworks. The roughs afterwards wrecked the chairman's house. Charles Bradlaugh pleads not guilty in the action against him for voting in the house of commons. CROSSING THE FORD. LONDON, March 14.—Degrieff, a Russian nihilist believed to have been the leader of the party that murdered Col. Sudeikin, arrived in England recently and has departed for America. OUR HOG AHEAD. BELLIN, March 14.—Trichinosis, engendered by eating German bred pork and due, in no wise to the American product, is raging in various parts of Germany. LYONS, March 14.—The chamber of commerce protest against the embargo on American pork. DIGNA'S DEFEAT. LONDON, March 14.—Further details of the desperate battle yesterday between the Arabi's forces and the rebels near the Tama Wells, continue to arrive. During the confusion which ensued when the British made their rush upon the British lines and captured them, the newspaper reporters and other non-combatants took part in the fray and used their revolvers freely and with deadly effect against the enemy. After the battle, Osman's camp and three villages were burned. Among the trophies, Osman's standard was taken and Tewfik Bey's recaptured. The British are considerably heavier than first reported. The number killed reach 100, wounded 150. General Graham's forces are returning to Suakin. Osman Digna fled to the hills. The Arabs retired before the English slowly and sullenly. They were defeated, but not put to rout. They walked away as if sauntering through a bazaar with arms folded or swinging at their sides. Many were shot down, but their bodies were not touched. The victims walked among the wounded as among so many vipers. A wounded Arab killed a British marine during the night, and another attempted to stab Col. Stewart while his aid-de-camp was giving the wounded man water. Admiral Hewitt to-day sent a fresh circular to the tribes warning them that if they do not obey the summons to submit, the fate of the Arabs who fell at Tob and Tama Wells will overtake them. A FILE BIRD IMPRISONED. COPENHAGEN, March 14.—A mechanic named Jens Nielsen, has been imprisoned for life for robbing a vessel, and for life for life for Victoria Dock, London, in 1881. SUEDEIKIN'S SUCCESSOR. ST. PETERSBURG, March 14.—Col. Dobuzki has been appointed successor to Col. Sudeikin as chief of the department in military governorship of St. Petersburg, for preservation of order, and a large secret fund has been placed at his disposal. A Broken Levee. BATON ROUGE, La., March 14.—The governor received a telegram from Bayou Sara to-day reporting the Grand levee in zone. The levee protected probably the richest sugar producing section of the state. It was built by the state last year at a cost of \$67,000. If the whole levee is gone, as reported, the volume of water a mile wide and ten feet deep will pour out of the Mississippi at that point. Forced to Do Right. SALINA, Kas., March 14.—The register of the United States land office here to-day certified to clerks of counties comprising this land district 290,100 acres of land which the Union Pacific Railway company has paid the fee. The action of the railway is largely due to Congressman Anderson of this state, who has been very active in efforts to compel the company to secure patents for all their lands along the line of their road that they may become taxable. Destruction of Drugs. KANSAS CITY, March 14.—The wholesale drug store of Woodruff, Faxon & Co., Union avenue, West Kansas, burned at 6 o'clock this morning. Estimated loss at stock \$75,000, insurance \$70,000. On the four-story building, which was valued at \$40,000, owned by Leach and Olmstead, \$20,000. The firm was carrying a stock of \$125,000, a portion of which was stored in an adjoining building and is unimpaired. A young man named Abrams, sleeping in the building jumped from the fourth story window and his injuries are thought to be fatal. Real Estate Transfers. The following deeds were filed for record in the county clerk's office March 14, reported for Tax Bx by Ames' real estate agency: John A. Horbach and wife to Andrew Lund, w d, s, 1 c, b, 8, in Parker's add. \$325. August Faust and wife to Henry Raikes, w d, s, of sec 35, 16, 11, e. \$4,400. Frank Murphy, single to Peter Penner, q c, 9, 13, part sec 16, 15, 13. \$1. Julia A. Armstrong, wife of George Armstrong, to Peter Penner, q c, 9, pt sec 16, 15, 13. \$1. Aaron Wentz and wife to John H. Levy, w d, s, of sec 35, 15, 13, e, containing 80 acres. \$2,400. A PRAIRIE BLOSSOM. The Steady Growth of Shelton, Buffalo County—Natural Advantages backed by Enterprising Men. Correspondence of THE BEE. SHELTON, Buffalo county Neb., March 13.—The rapid growth and enlargement of most of our Nebraska towns make it difficult to avoid a sameness in our description of their several interests. Shelton, however, enjoys superior advantages in its location. The beautiful and fertile valley of the far famed Platte has given to this place all that could be desired in vastness of extent and wealth of soil, while the near proximity of the Wood River valley which is known as a gem of beauty, has added to the attractiveness of the whole country around Shelton. Here, as in other places, men of business and enterprise have opened their trades and vocations and are fast gathering the rewards of industry and skill. Stores well filled with choice selections of goods, clothing, elevators, machinery, in fact everything that a western town needs and will have, impress you with the thought that the whole field of personal activity has been eagerly entered upon. The indispensable and universally prized school house and church are here also and the full patronage at both indicate the pleasure the people take in these delightful features of Nebraska taste and enterprise. The quality of the soil around Shelton can hardly be surpassed in any county in the state, and the yield of corn during the past year is simply enormous. To the Illinois and Iowa farmer the long line of well-tilled acres and the almost numberless teams drawing this staple article to market are cheering evidences of the capabilities of the country. It is said that the Mormons a few years ago designated this place as desirable by making their encampment here. Some of the inhabitants here have had the hardships and discouragements of drought and grasshopper raids and are now rich in the material substance gathered about them. Fine horses and cattle, and choice breeds of hogs and sheep suggest a still larger expansion of the wealth of this garden spot of Nebraska. Your correspondent noticed during the past year in traveling over the state, the best crops of all kinds in the belt of country lying between Wood river and Gibbon, and of which Shelton is the happy center. The flourishing mill, under the direction of the experienced Miller Burrows, is doing a good work for this section of the country. J. D. Gilbert is busy at work furnishing brick for the more substantial buildings which the people will no doubt be desirous of putting up in place of the inflammable wooden structures which are the necessity of all newly built towns. Running close by the town is the small yet beautiful Wood river, whose banks are fringed with a natural growth of box elder, which in summer time lends a refreshing charm to the whole country, winding as it does back and forth as if to spread its benefits as far as possible. Land is advancing rapidly in price, and evidently the day of "cheap lands" is a thing of the past in this locality. Mr. Oliver, one of the leading merchants of the place, whose stay in the country dates back to the thrilling scenes and incidents connected with Indian raids and depredations, has steadily built up a handsome business, and is at present erecting one of the most imposing private residences which is found in this portion of Nebraska. With the continued rapid growth of town and country, the expansion of business, and the pushing forward of church and school advantages, there is no reason why Shelton may not expect to claim a generous share of the immense emigration which is now pouring into this state. During the past year two large capitalists, Hedges and Junk, have come in from Fairfax, Iowa, and are looked upon as important factors in the prosperity of the town of their option. Others will come and they who come first will evidently be best served. Y. Z.

OTTAWA, March 14.—A delegation of brewers waiting on the governor to-day and said the trade was generally head-capped by existing legislation and they desired that the government should amend the Scott temperance act so as to grant power to sell light wines in all the counties that adopted the act. This would help to decrease the use of ardent liquors and promote sobriety. EFFECTS OF OSMAN'S DEFEAT. LONDON, March 14.—General Graham telegraphs that the sheiks are more peaceable since Osman's defeat and he expected the road to Berber to be clear within 10 days. BRADLAUGH ROTTEN-EGGED. LONDON, March 14.—Bradlaugh, while delivering a lecture at Bridgewater last night against perpetual pensions, was attacked by roughs and driven from the platform by showers of rotten eggs and fireworks. The roughs afterwards wrecked the chairman's house. Charles Bradlaugh pleads not guilty in the action against him for voting in the house of commons. CROSSING THE FORD. LONDON, March 14.—Degrieff, a Russian nihilist believed to have been the leader of the party that murdered Col. Sudeikin, arrived in England recently and has departed for America. OUR HOG AHEAD. BELLIN, March 14.—Trichinosis, engendered by eating German bred pork and due, in no wise to the American product, is raging in various parts of Germany. LYONS, March 14.—The chamber of commerce protest against the embargo on American pork. DIGNA'S DEFEAT. LONDON, March 14.—Further details of the desperate battle yesterday between the Arabi's forces and the rebels near the Tama Wells, continue to arrive. During the confusion which ensued when the British made their rush upon the British lines and captured them, the newspaper reporters and other non-combatants took part in the fray and used their revolvers freely and with deadly effect against the enemy. After the battle, Osman's camp and three villages were burned. Among the trophies, Osman's standard was taken and Tewfik Bey's recaptured. The British are considerably heavier than first reported. The number killed reach 100, wounded 150. General Graham's forces are returning to Suakin. Osman Digna fled to the hills. The Arabs retired before the English slowly and sullenly. They were defeated, but not put to rout. They walked away as if sauntering through a bazaar with arms folded or swinging at their sides. Many were shot down, but their bodies were not touched. The victims walked among the wounded as among so many vipers. A wounded Arab killed a British marine during the night, and another attempted to stab Col. Stewart while his aid-de-camp was giving the wounded man water. Admiral Hewitt to-day sent a fresh circular to the tribes warning them that if they do not obey the summons to submit, the fate of the Arabs who fell at Tob and Tama Wells will overtake them. A FILE BIRD IMPRISONED. COPENHAGEN, March 14.—A mechanic named Jens Nielsen, has been imprisoned for life for robbing a vessel, and for life for life for Victoria Dock, London, in 1881. SUEDEIKIN'S SUCCESSOR. ST. PETERSBURG, March 14.—Col. Dobuzki has been appointed successor to Col. Sudeikin as chief of the department in military governorship of St. Petersburg, for preservation of order, and a large secret fund has been placed at his disposal. A Broken Levee. BATON ROUGE, La., March 14.—The governor received a telegram from Bayou Sara to-day reporting the Grand levee in zone. The levee protected probably the richest sugar producing section of the state. It was built by the state last year at a cost of \$67,000. If the whole levee is gone, as reported, the volume of water a mile wide and ten feet deep will pour out of the Mississippi at that point. Forced to Do Right. SALINA, Kas., March 14.—The register of the United States land office here to-day certified to clerks of counties comprising this land district 290,100 acres of land which the Union Pacific Railway company has paid the fee. The action of the railway is largely due to Congressman Anderson of this state, who has been very active in efforts to compel the company to secure patents for all their lands along the line of their road that they may become taxable. Destruction of Drugs. KANSAS CITY, March 14.—The wholesale drug store of Woodruff, Faxon & Co., Union avenue, West Kansas, burned at 6 o'clock this morning. Estimated loss at stock \$75,000, insurance \$70,000. On the four-story building, which was valued at \$40,000, owned by Leach and Olmstead, \$20,000. The firm was carrying a stock of \$125,000, a portion of which was stored in an adjoining building and is unimpaired. A young man named Abrams, sleeping in the building jumped from the fourth story window and his injuries are thought to be fatal. Real Estate Transfers.
